Plant Oil Complex

Sodium Lactate & Sodium Gluconate

Sodium Lactate & Sodium Gluconate are naturally derived fermented plant carbohydrate.

Clinical studies shown that Sodium Lactate & Sodium Gluconate ...

Help to **reduce Transepidermal Water Loss (TEWL) & skin dryness** caused by the cleansing agents.

It can also help to **maintain the moisture level in the skin** by increasing the mildness of the product.

Panthenol

Panthenol is also known as Pro-Vitamin B5. This powerful active helps to **improve skin hydration level**, thanks to its hydration boosting properties. It also has soothing properties, which helps to **soothe** your skin by reducing skin redness & discomfort sensation caused by skin dryness.

- Skin softening
- Hydration boosting
- Strengthening skin barrier function

Saccharide Isomerate

After just one use

✓ Immediate reinforced skin barrier

✓ 24 Hours long lasting hydration

✓ Skin moves from dry to normal

Saccharide Isomerate is a skin identical carbohydrate complex derived from maize kernels, using sustainable sugar isomerization technology.

After frequent showering

✓ Reinforced skin barrier

✓ Post-shower dryness prevention

✓ Optimum hydration

Consumers confirm efficacy

The product alleviates tight feeling

My skin feels softer

My skin feels more moisturized

The product left my skin feeling revitalized

Chamomile Flower Extract

Chamomilla recutita is commonly known as German chamomile, is native to European countries and other temperate regions of North America and Australia.

Topically, it has been effectively used in skin care for its **anti-oxidant, anti-inflammatory, anti-bacterial & skin brightening** properties.

- Active compounds like α -bisabolol and chamazulene provides **soothing & calming** effects on the skin, which is well suited for dry & sensitive skin.
- Flavonoid (Apigenin) induces **anti-oxidant** effect on the skin by reducing the production of reactive oxygen species (ROS).

Centella Asiatica Leaf Extract

Centella Asiatica is also known as Gotu Kola, is one of the most wide-spread Ayurvedic herbs, especially for its wound healing properties.

Asiatic Acid, Madecassic Acid, Asiaticoside & Madecassoside are the beneficial active compounds for skin.

Main cosmetic properties:

- **Anti-inflammatory**
- **Soothing**
- **Moisturizing**
- **Anti-oxidant**
- **Anti-bacterial**

Plant Oil Complex

It is a blend of Meadowfoam Seed Oil, Canola Oil, Sunflower Oil & Argan Oil.

Nano-emulsion technology allows for **fast delivery and absorption** of the natural oils into the upper layers of the skin providing the **good skin penetration** & reduction of TEWL.

**Limnanthes
alba (Meadowfoam) Seed Oil**

- Antioxidant
- Improves skin barrier function

Canola Oil

- Moisturizing
- Antioxidant

**Helianthus Annuus
(Sunflower) Seed Oil**
