

JenCare Tinted Moisturizer

Achieving healthy beautiful skin

This document is intended for internal use only

Featured Ingredients

Ceramide Complex

Squalane

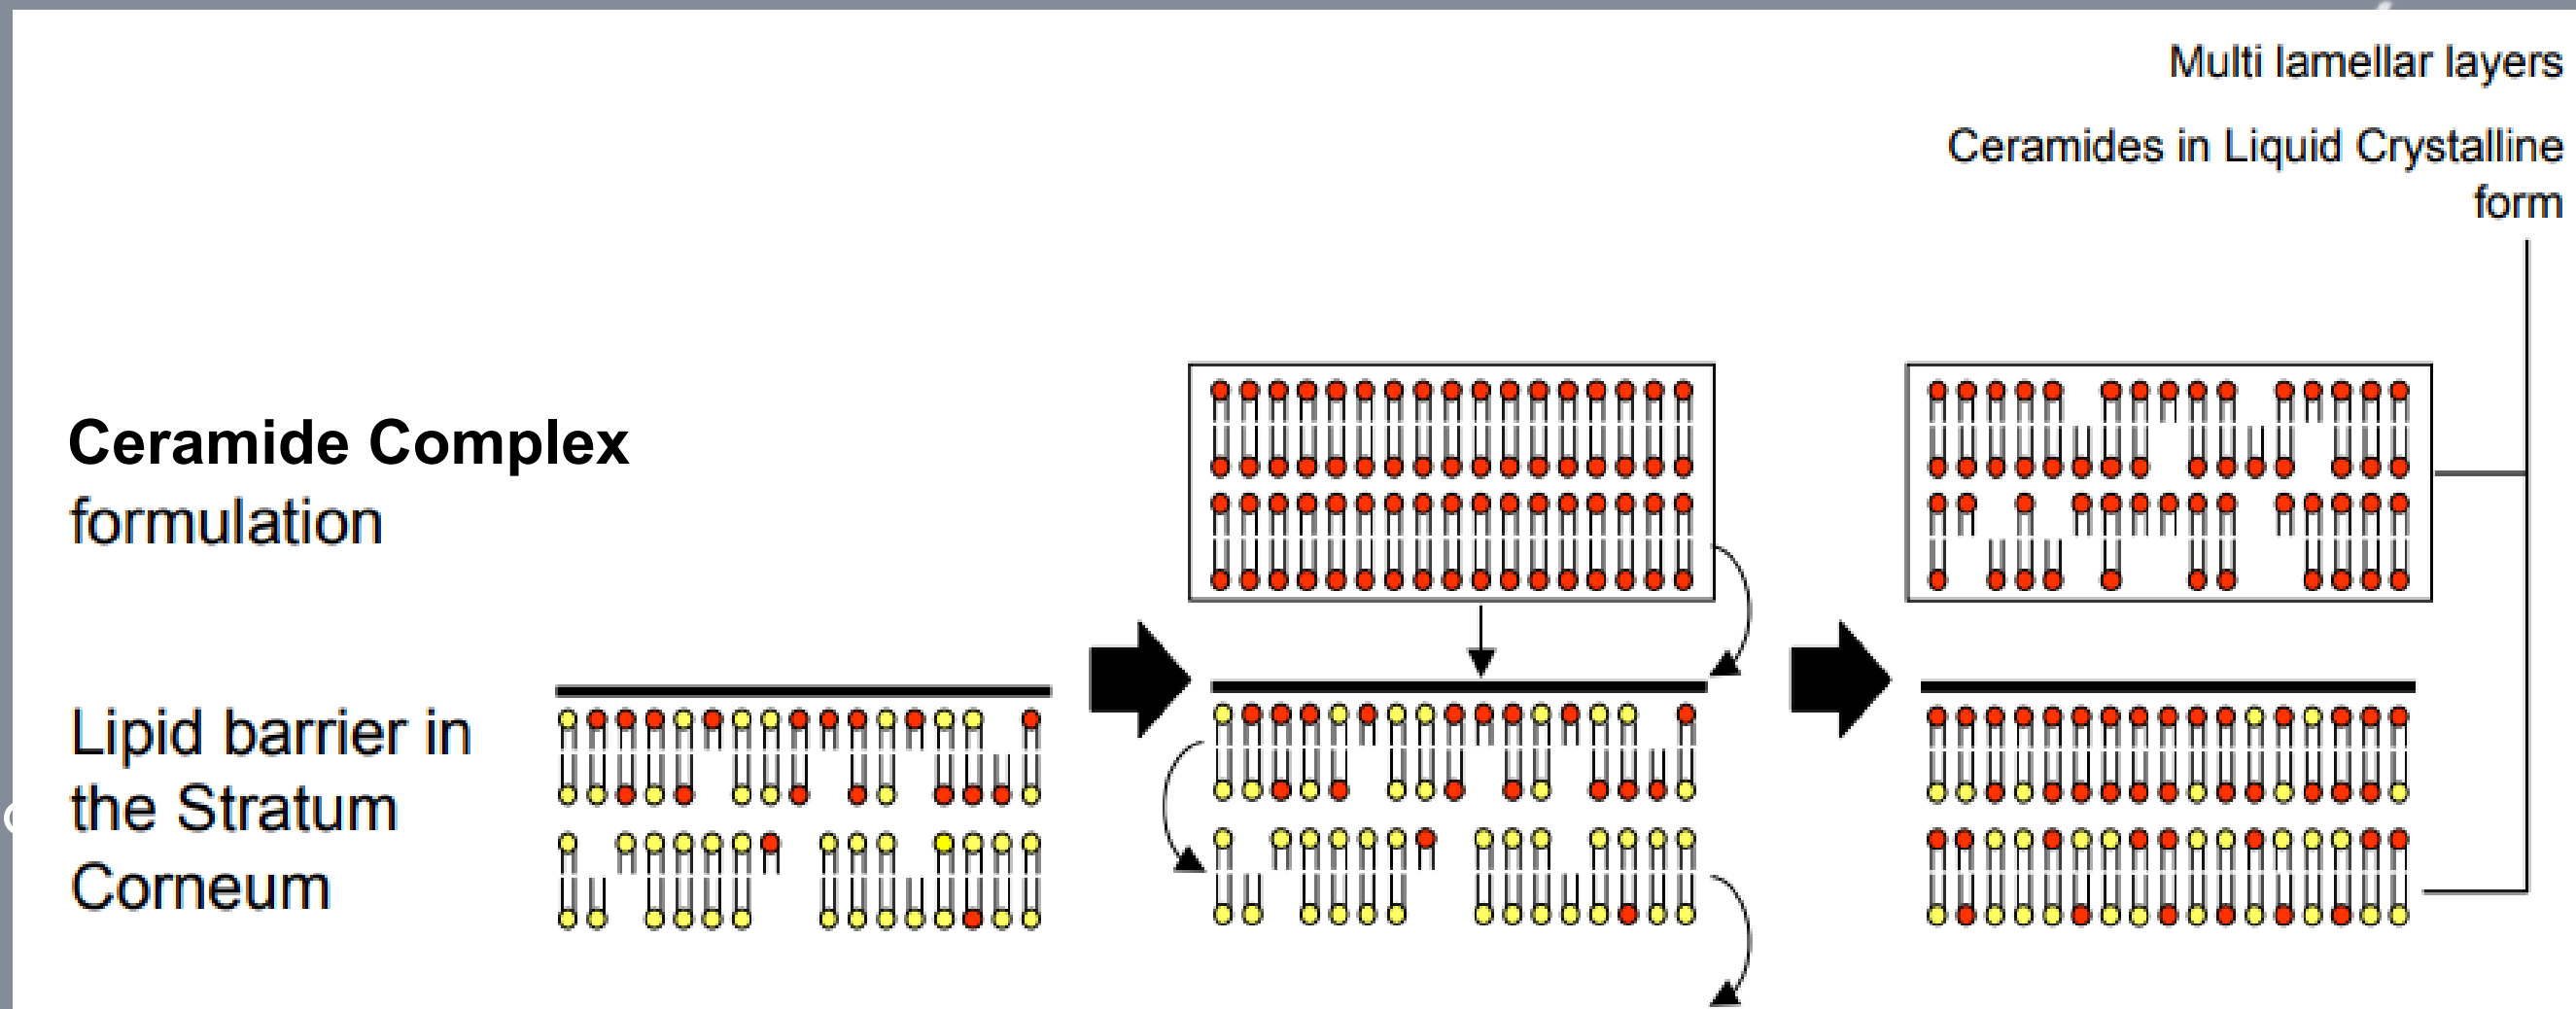

Panthenol

Niacinamide

**Sodium Lactate &
Sodium Gluconate**

Ceramide Complex

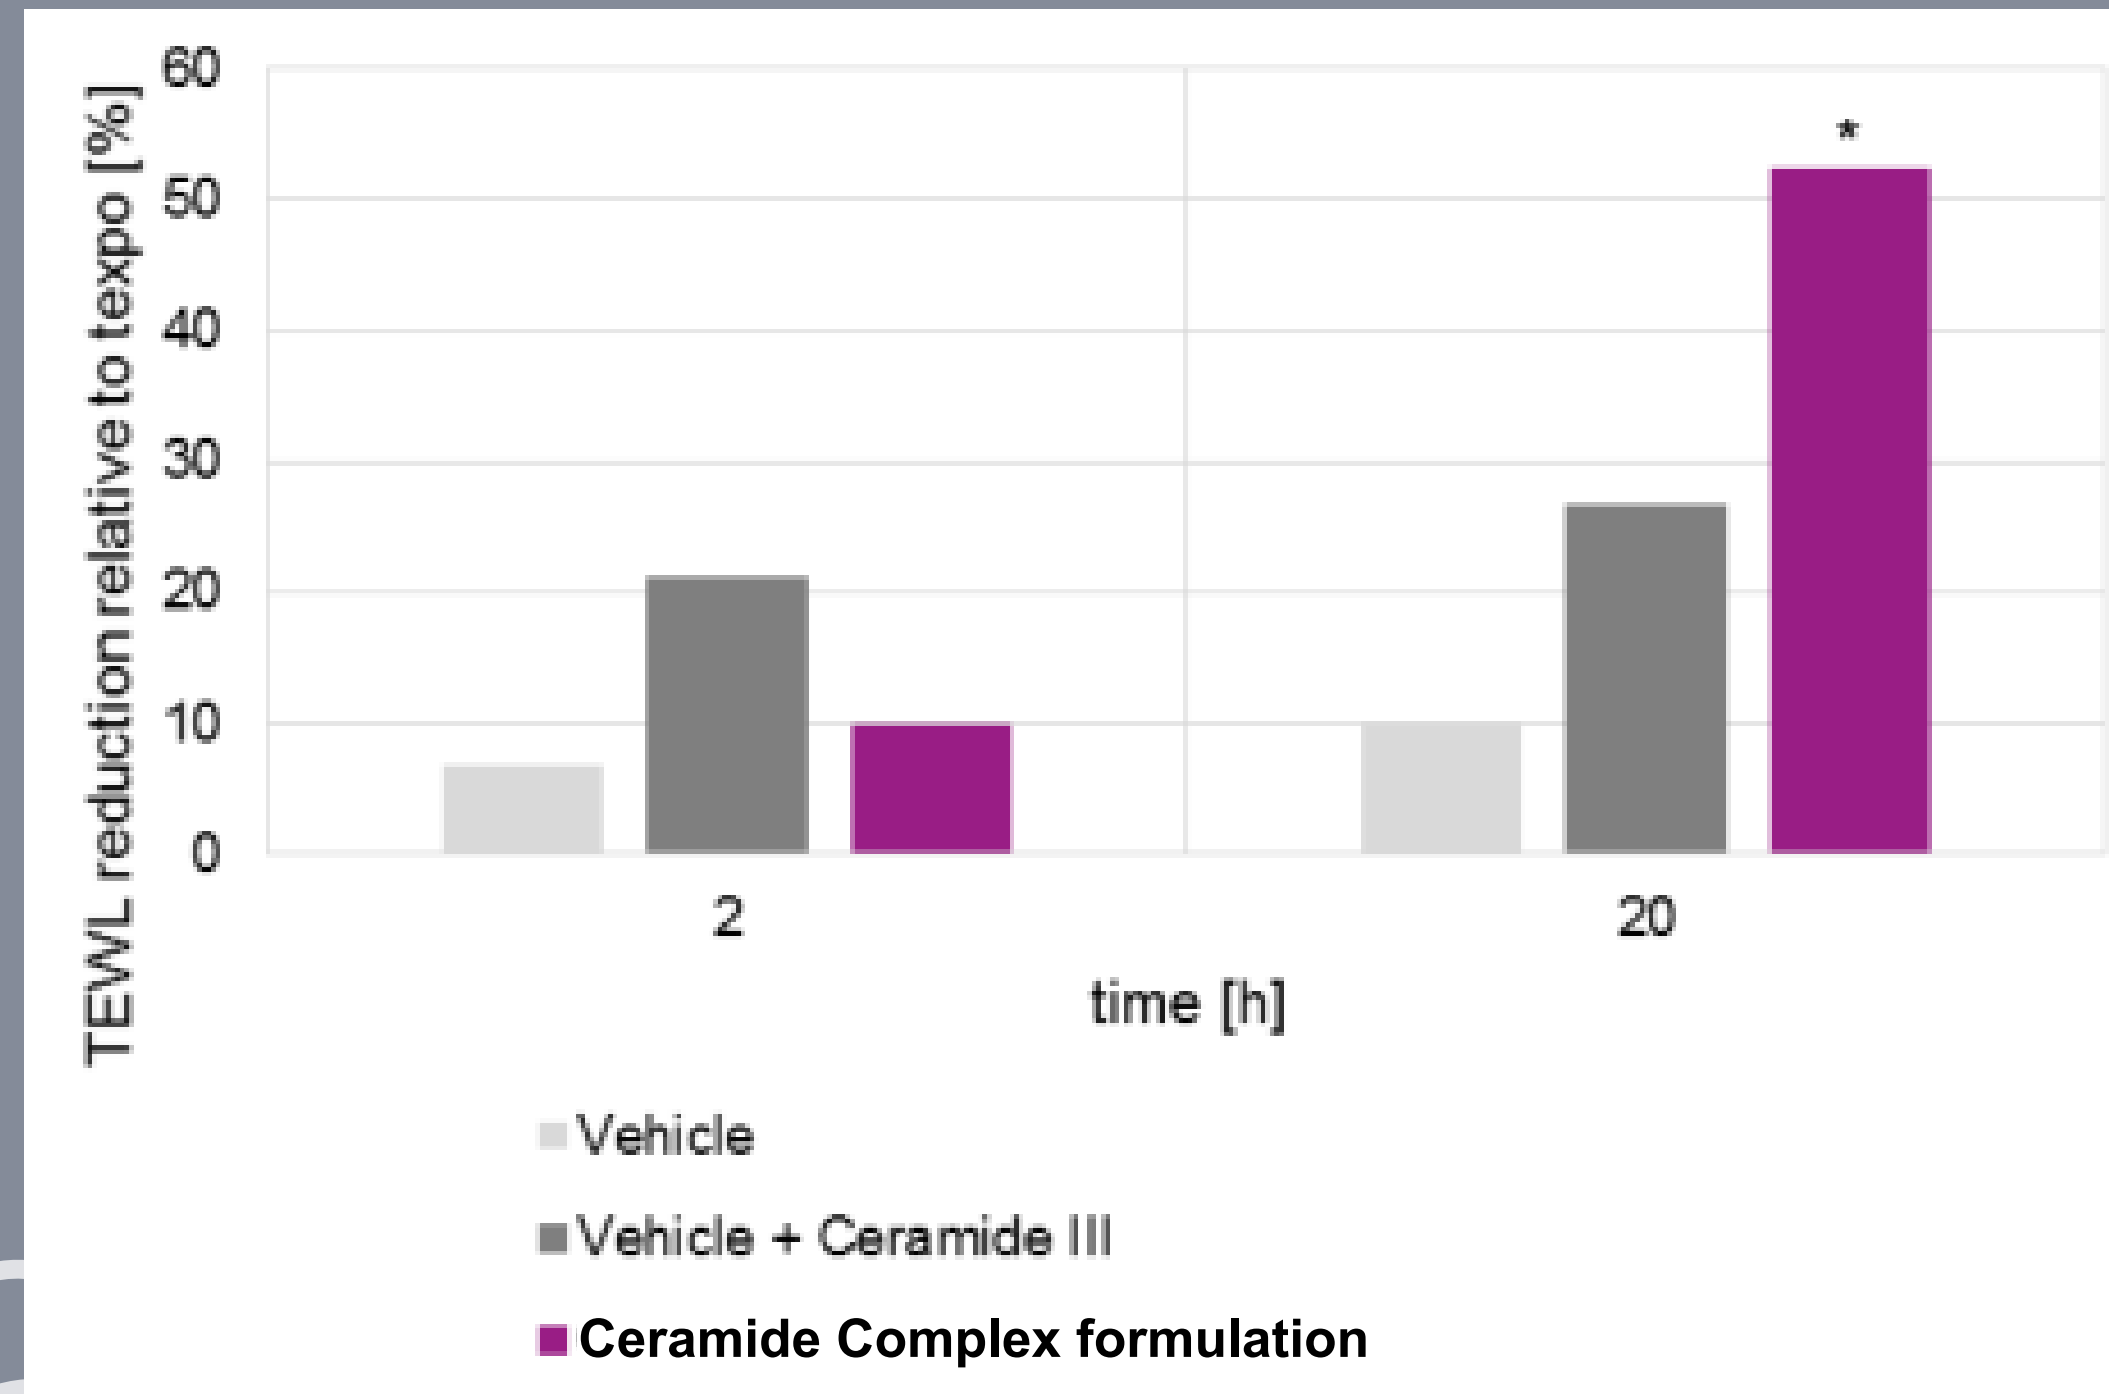

A skin-identical lipid concentrates composed of **ceramides, cholesterol, free fatty acid & phytosphingosine**, produced by the **patented BioMembrains®** technology.

Multi-lamellar (membrane) system & liquid crystal structure of ceramides resembling the structure of the lipid barrier in the Stratum corneum.

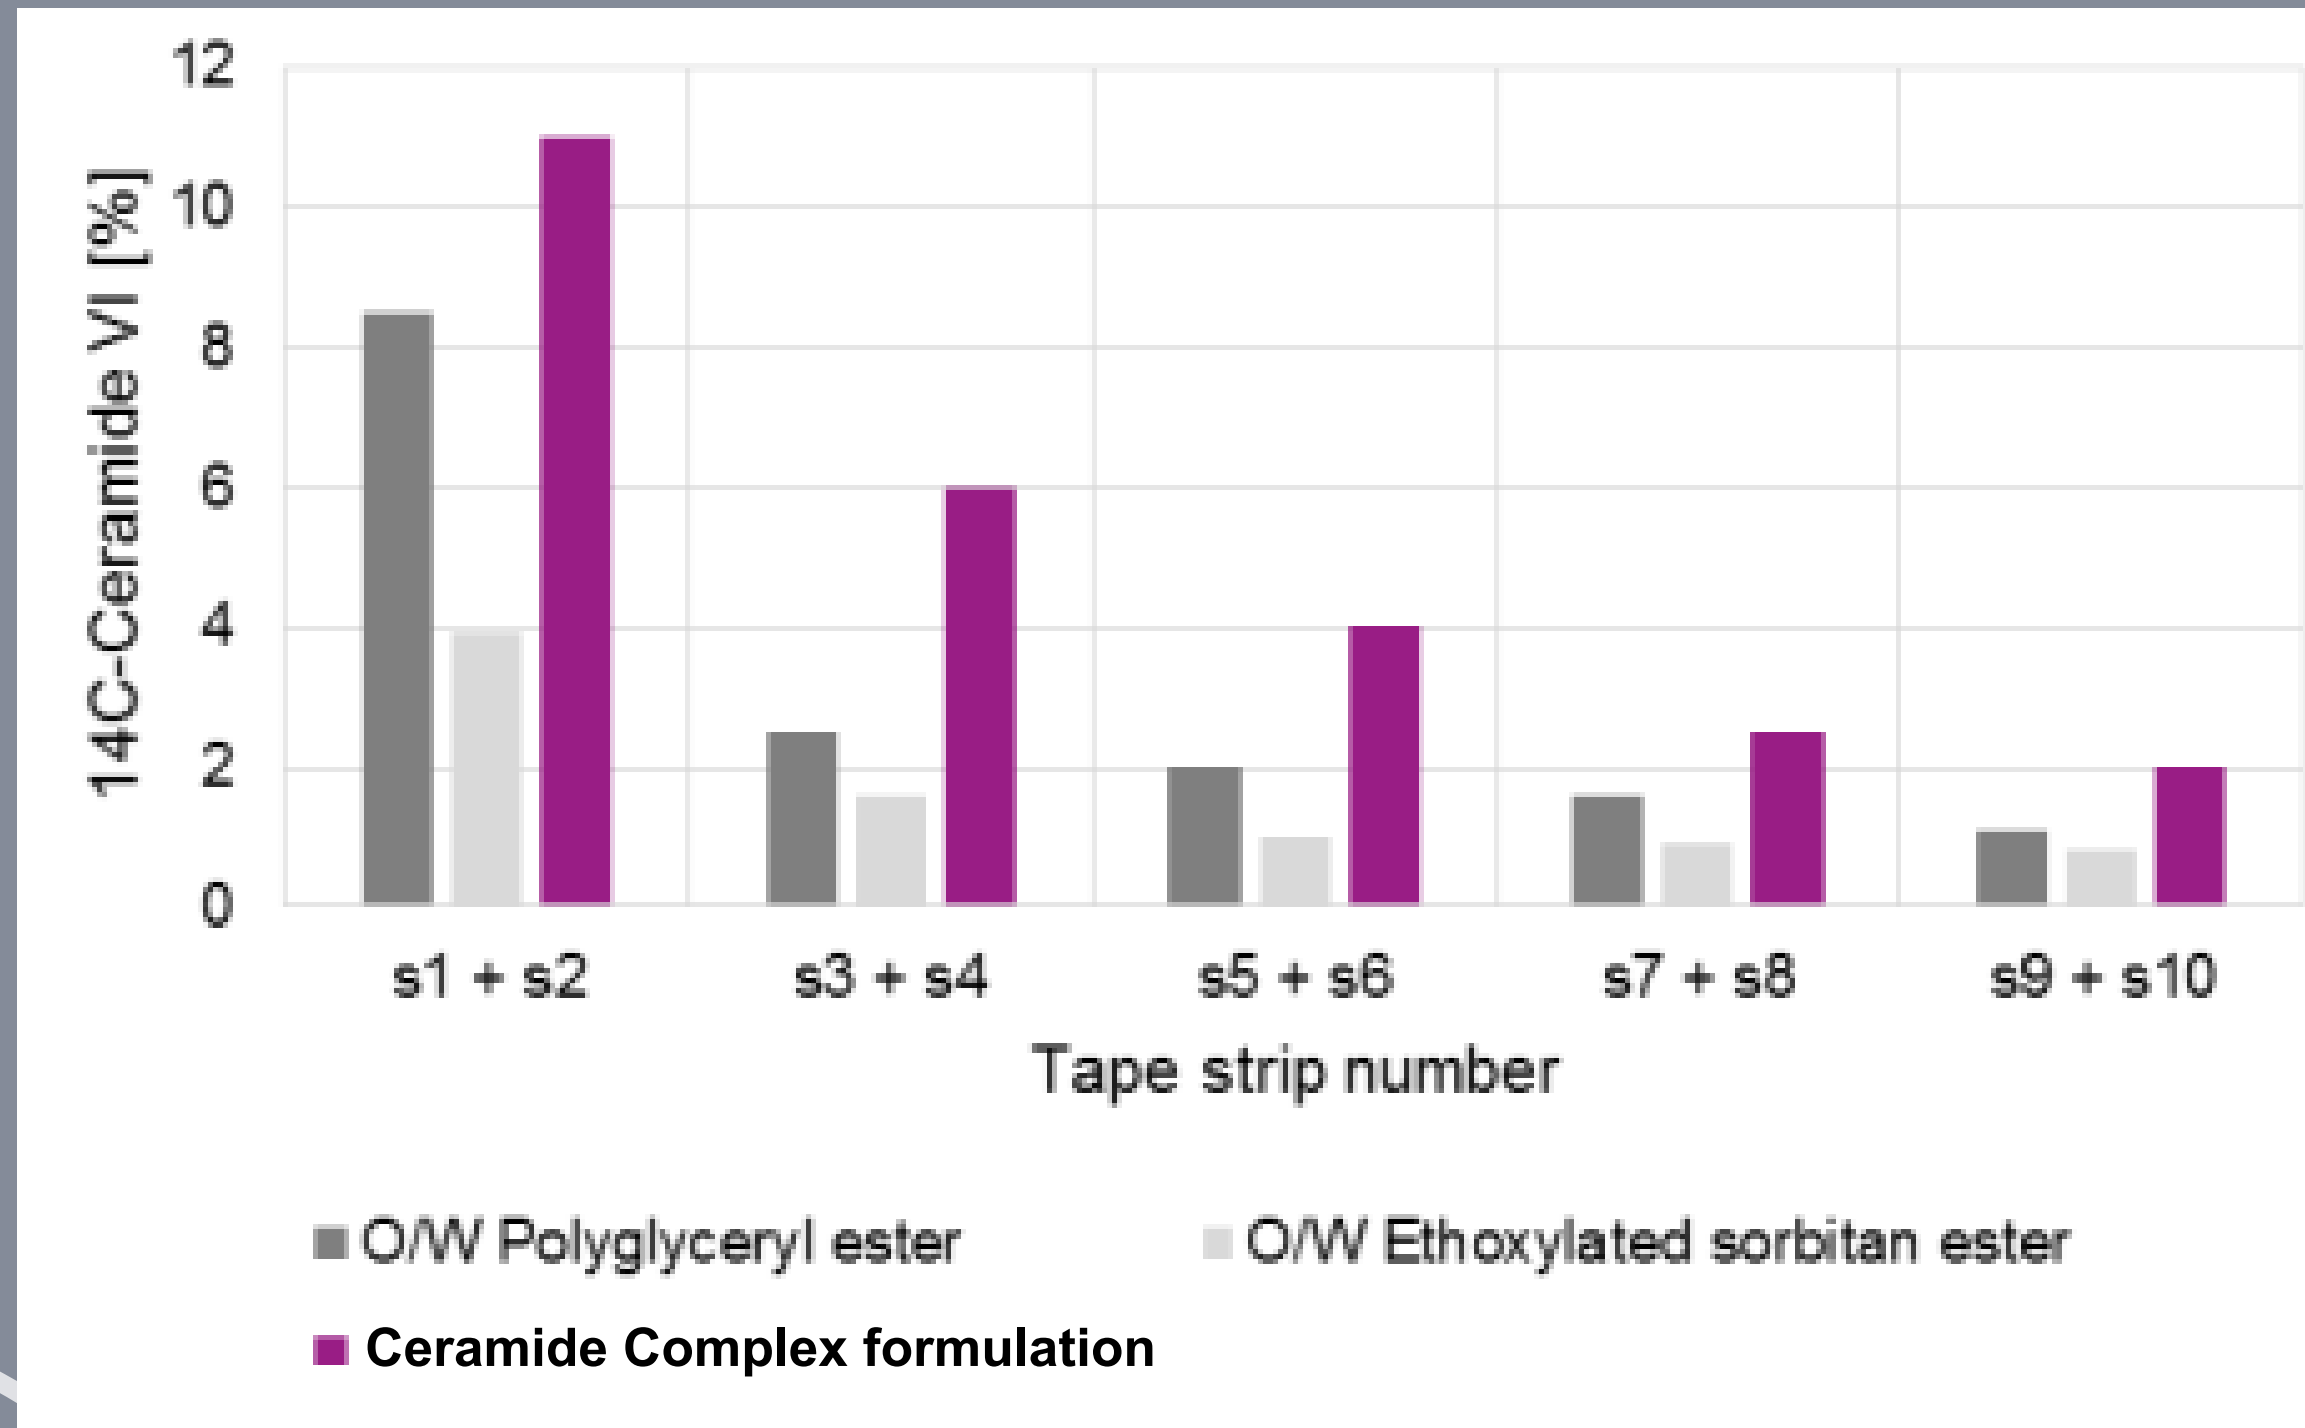

Ceramide Complex

Stratum Corneum barrier repair efficacy of Ceramide Complex formulation

Ceramide Complex

Ceramide uptake efficacy by the skin

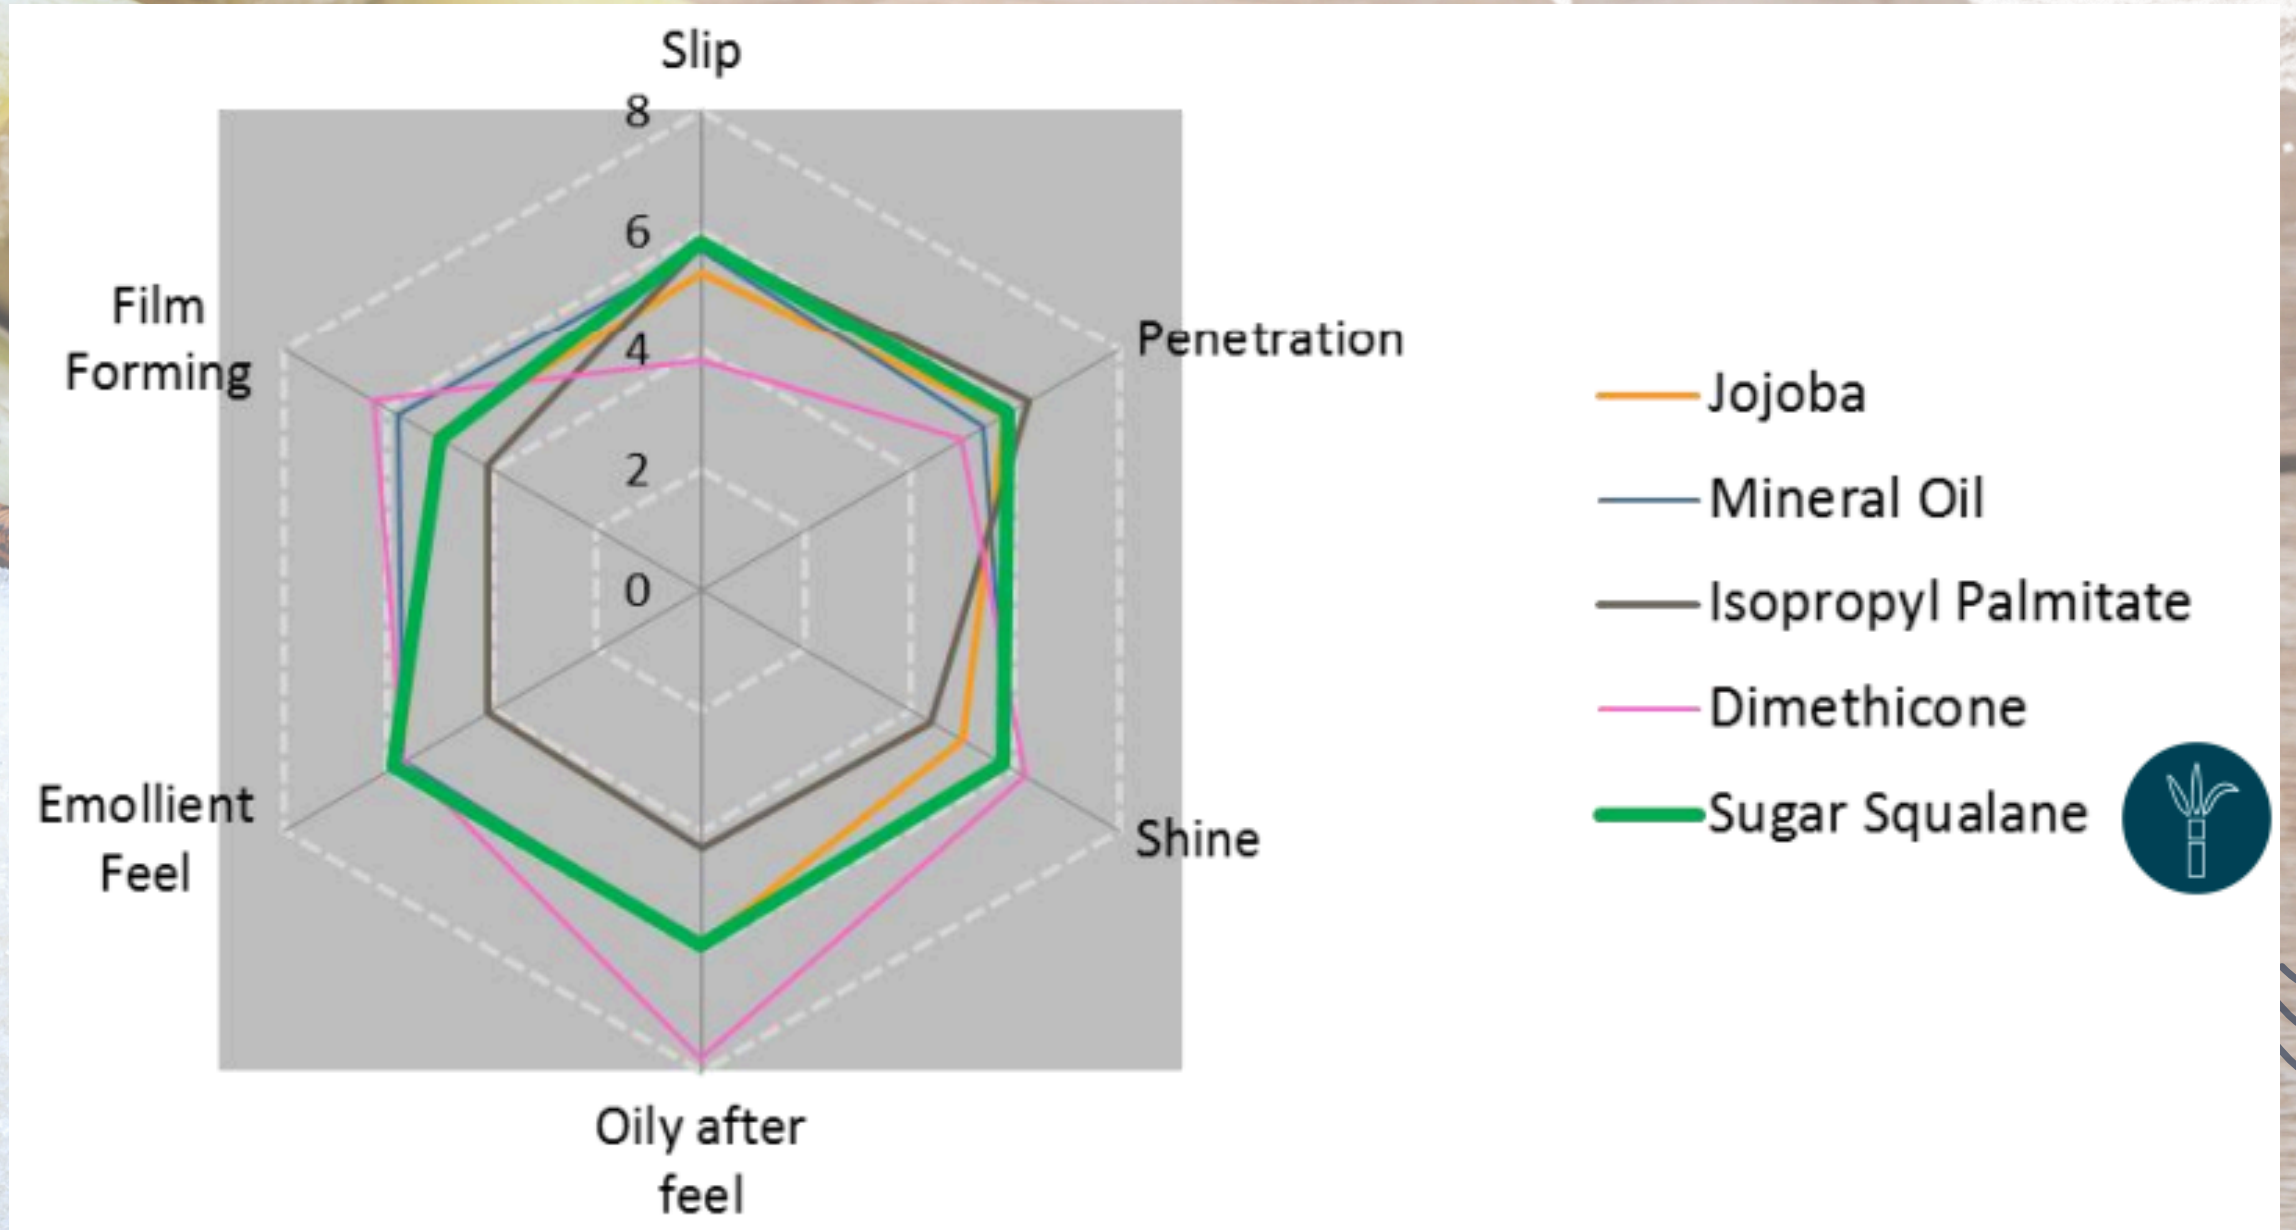

Delivery system of ceramides is important in incorporating ceramides into the lipid barrier of our stratum corneum.

Squalane

Our Squalane is derived from Sugar Cane.

This Sugar Squalane helps to **improve our skin texture** & to **reduce Transepidermal Water Loss (TEWL)** by forming an occlusive layer on the skin.

Sugar Squalane has **balanced sensorials** among the emollient oils

Panthenol

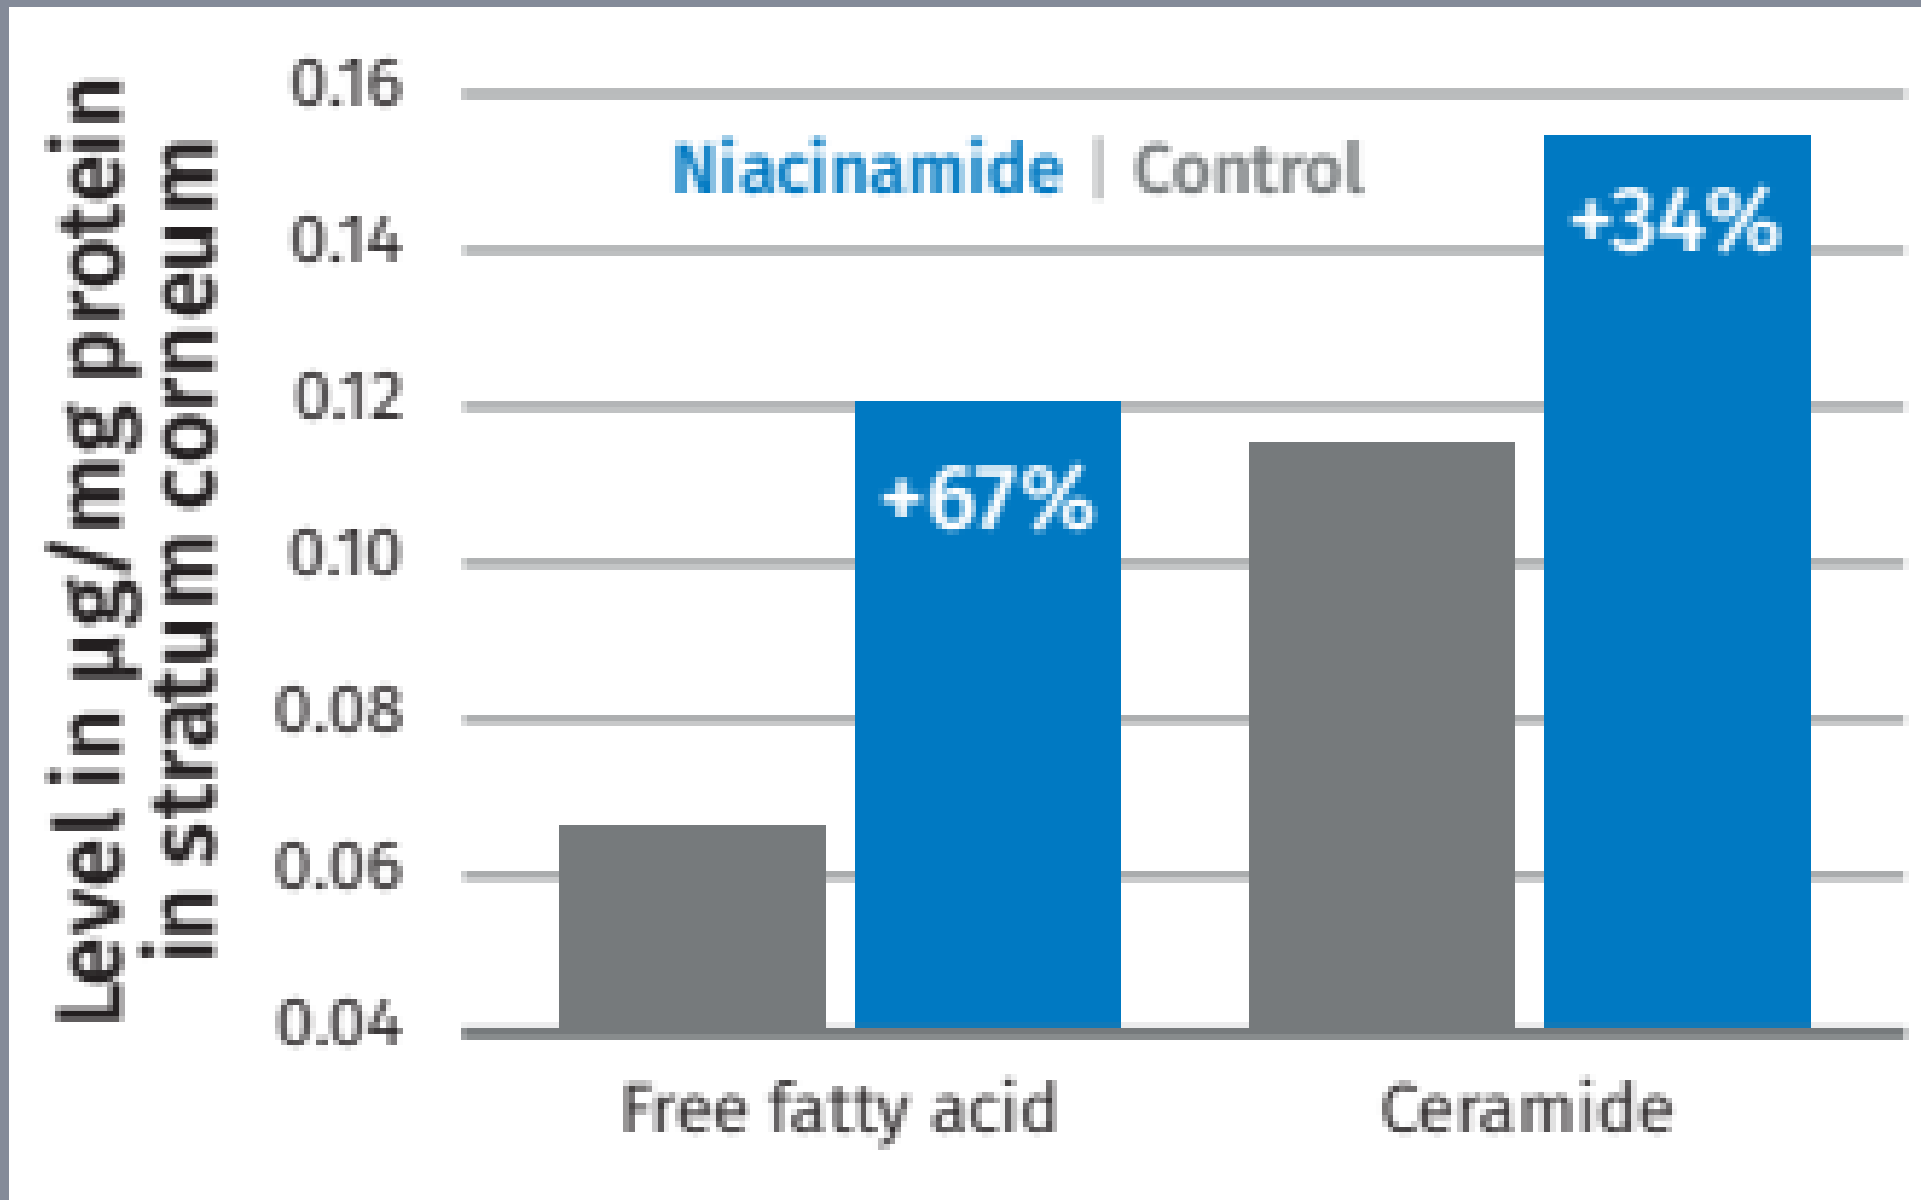

Panthenol is also known as **Pro-Vitamin B5**. This powerful active helps to **improve skin hydration level**, thanks to its hydration boosting properties. It also has soothing properties, which helps to **soothe** your skin by reducing skin redness & discomfort sensation caused by skin dryness.

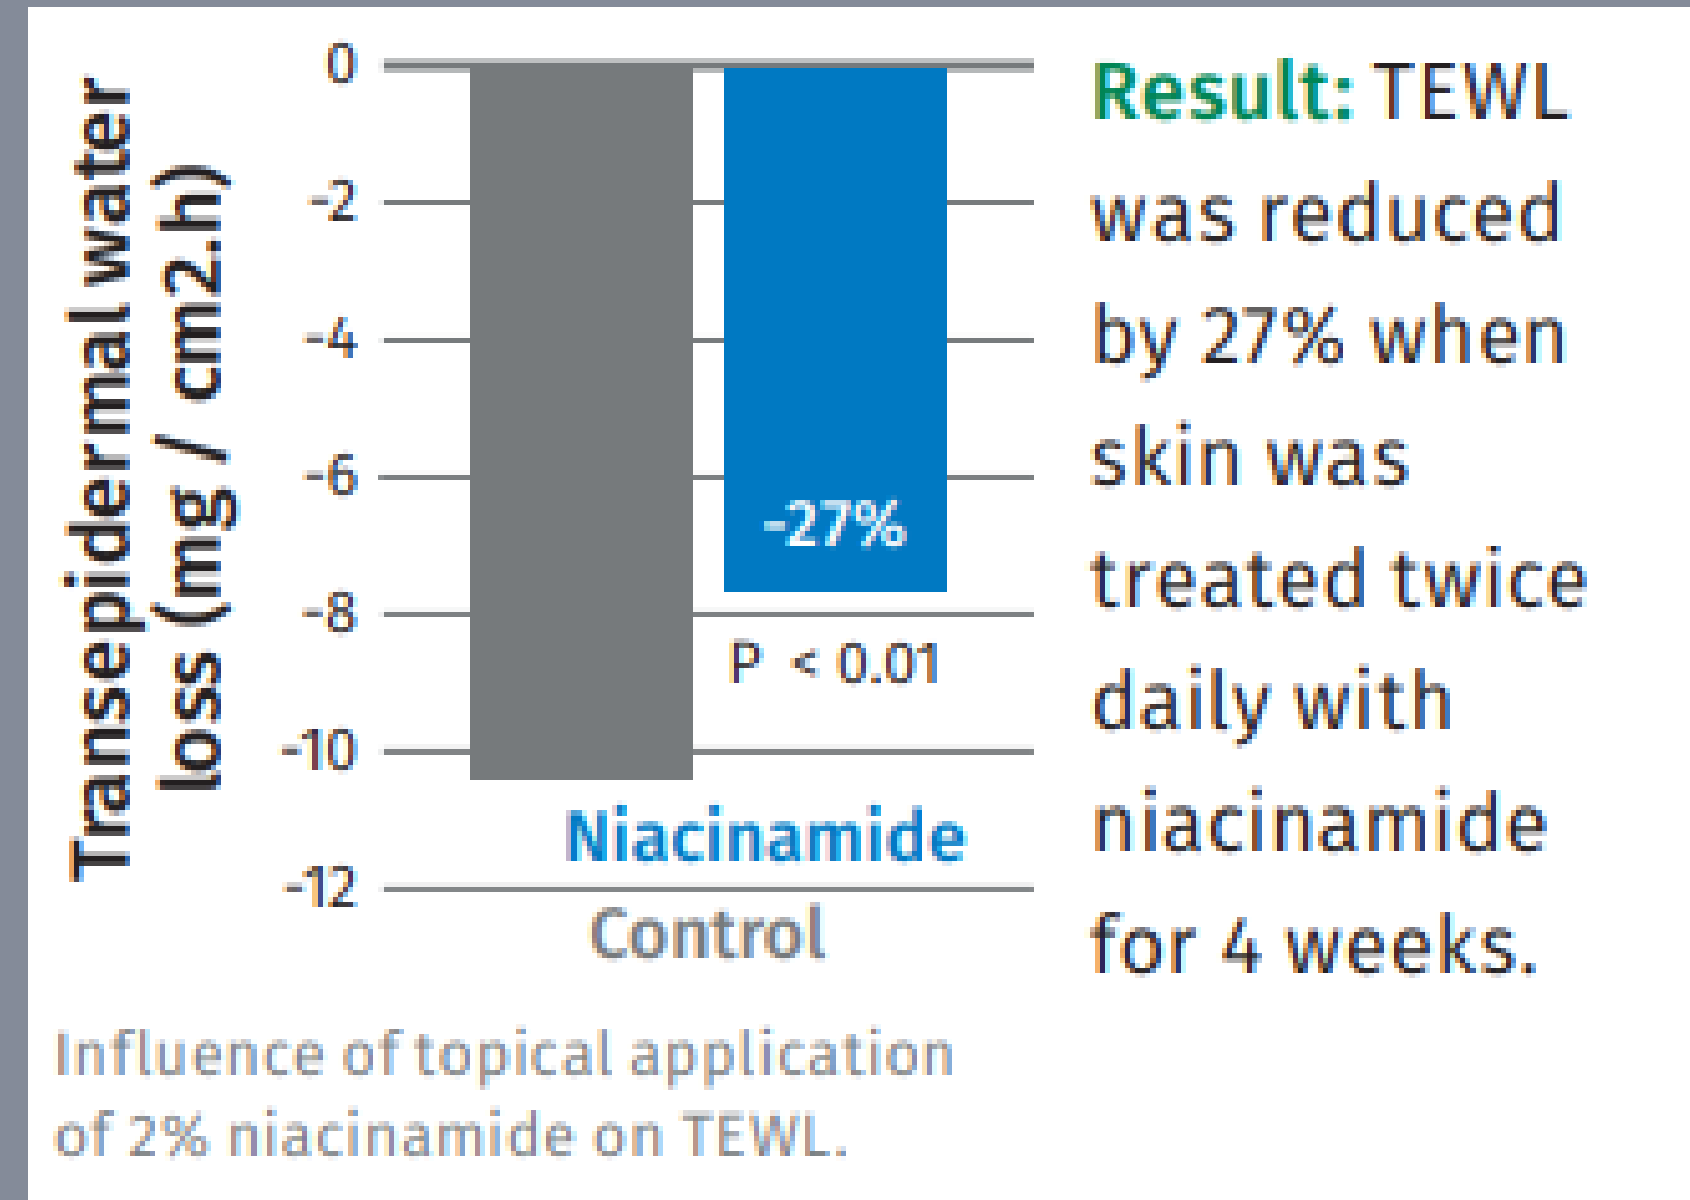

- Skin softening
- Hydration boosting
- Strengthening skin barrier function

Niacinamide

Niacinamide increased ceramide & free fatty acids level in stratum corneum

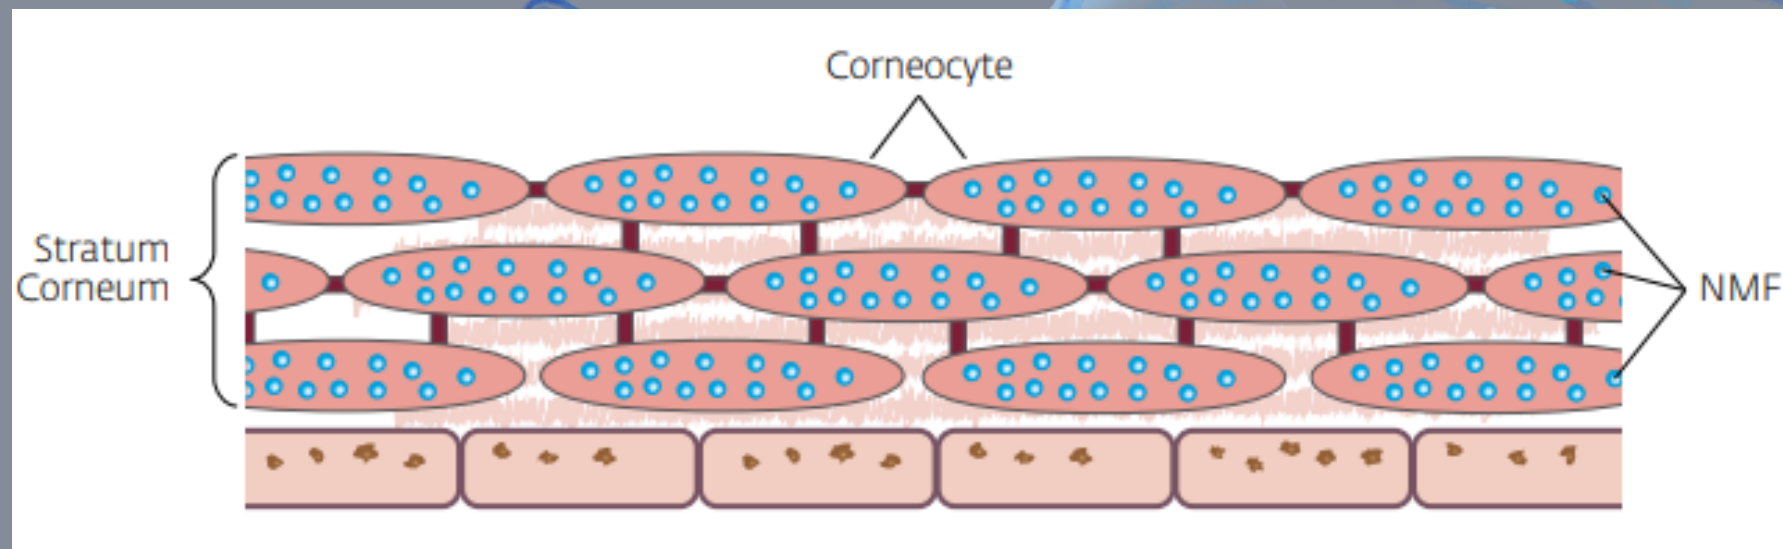

Reduction of TEWL after application of Niacinamide

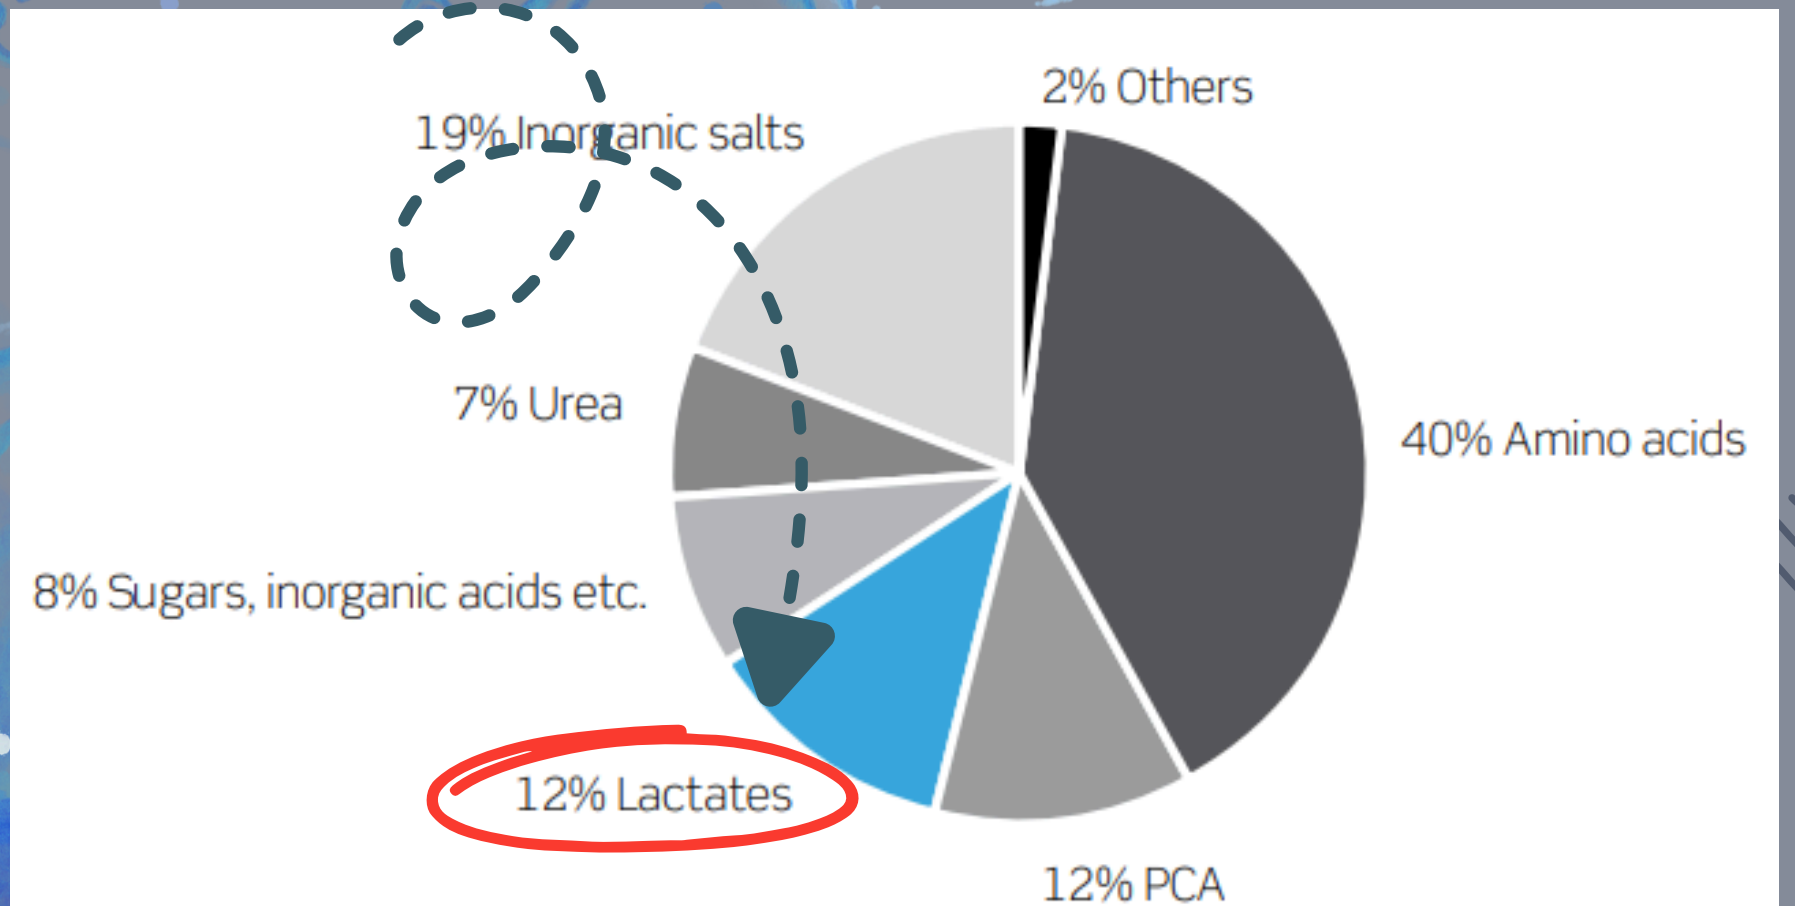

Sodium Lactate & Sodium Gluconate

Sodium Lactate & Sodium Gluconate are naturally derived fermented plant carbohydrate

Lactate plays a crucial role in optimizing skin hydration as it is one of the major components in NMF.

In the cells of Stratum Corneum - Corneocytes contains the Natural Moisturizing Factor that helps in preventing water loss from our skin.

Key Benefits

Light texture with sheer coverage, providing a natural complexion & healthy look.

Infused with triple moisture mechanism - humectant, lipids & occlusive for skin hydration, barrier repair & skin softness.

Moisturizer with broad spectrum UV protection that helps to protect our skin from UVA & UVB rays damage.**

****Contains chemical & mineral sun filters to provide UV protection**

THANK
YOU
